

– *Curriculum Vitae* –

JEFF SHAW, Psy.D.

Position:

Neuropsychologist

Prior Employment:

Clinical Assistant Professor, University of Missouri School of Medicine

Professional Education and Training:

BS Psychology – University of Georgia

MS Counseling – Georgia State University

PsyD Clinical Psychology – American School of Professional Psychology

Neuropsychological Training – Emory School of Medicine, Western State Hospital, University of Missouri School of Medicine

Professional Affiliations/Committees:

American Psychological Association, Pacific Northwest Neuropsychological Society, International Neuropsychological Society

Clinical Interests:

Maximizing quality of life despite neurological factors, improving technology to expand rehabilitation, visual spatial rehabilitation, improving relationships, treatment of depression and anxiety disorders.

Research Interests:

Improving the efficacy and outcome measures associated with cognitive rehabilitation, minimizing

Care Philosophy:

I believe that our treatment services can reduce unnecessary suffering that is often magnified with neurological conditions.

What I like best about working at BGPCC:

I love having a resourceful, passionate team of health care providers, who all add to improving the lives of the patients we see. Every day, I learn something new from my colleagues and I am inspired to develop improved ways to help those people diagnosed with movement disorders.

Hobbies:

Bicycling, whitewater kayaking, woodworking/carving, oil painting, video games

(continued)
